"One of the things I LOVE about cooking is that cooking a meal is one of the most personal and intimate things you can do for someone. The speciality about a home cooked meal is the feeling of abundance it provides, everything you have and need is right in the front of you within arms reach. The fragrance of garlic, the crackle from the skillet, and the sight of perfectly roasted bird coming out from the oven....DIVINE! Cooking speaks to all of my senses. It's a joy I'm so proud to know!"
